SUMMARY

Inspired by the initiatives of Women in IT, I am seeking a role that leverages my SQL skills and allows me to contribute to the field of technology.

With a robust background in banking, I bring a careful attention to detail and a deep appreciation for the significance of data consistency. My direct client engagement experience has been honed over three years of freelancing, where I successfully managed diverse client needs and expectations.

I am open-minded and eagerly embrace new challenges, with self-motivation driving my continuous learning and professional growth.
